

Virginia Household Water Quality Program 2023 Agent In-service Training

Tuesday February 28, 2023 8:30 am - 4:30 pm

Registration begins at 8 am

Forestry Building
900 Natural Resources Drive #800
Training Room
Charlottesville, VA

ANR, FCS, and 4-H agents welcome.

The Virginia Household Water Quality Program aims to improve the water quality and health of Virginians with wells, springs and cisterns.

We provide affordable water testing, help interpreting their water test results, and information about addressing problems.

Extension agents work with campus faculty to offer drinking water clinics in about 70 counties each year.

This in-service is required for agents to hold drinking water clinics locally.

Please email Erin Ling to register:
ejling@vt.edu

A virtual (Zoom) version of this training is also available Mar 6, 7 and 9 1-3 pm.

Topics covered:

- Groundwater in Virginia
- Well construction and regulations
- Landuse impacts and wellhead protection
- Using Envision Groundwater models
- Springs and cisterns
- Water treatment
- Conducting a drinking water clinic
- Interpretation of water analysis results

Virginia Cooperative Extension is a partnership of Virginia Tech, Virginia State University, the U.S. Department of Agriculture, and local governments. Its programs and employment are open to all, regardless of age, color, disability, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, genetic information, military status, or any other basis protected by law.
